Intro -duction

Introduction

One theme : the professional environment

Challenges of organization
Different schedules and priorities between workers
Lack of hierarchy but instead stacking of meetings

Needs : one support in charge of gathering schedules to offer availabilities

Time gain
Simplicity
Task delegation
Clarity for workers

Concept

Concept

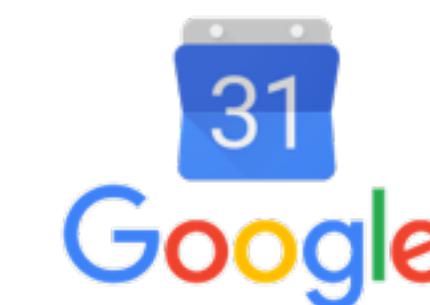

A professional calendar comparator system

Find the ideal availability to set up
a meeting with your
co-workers

Build a team • fix an event • indicate your desired timetables •
pick among the dates selection • send invites to the members

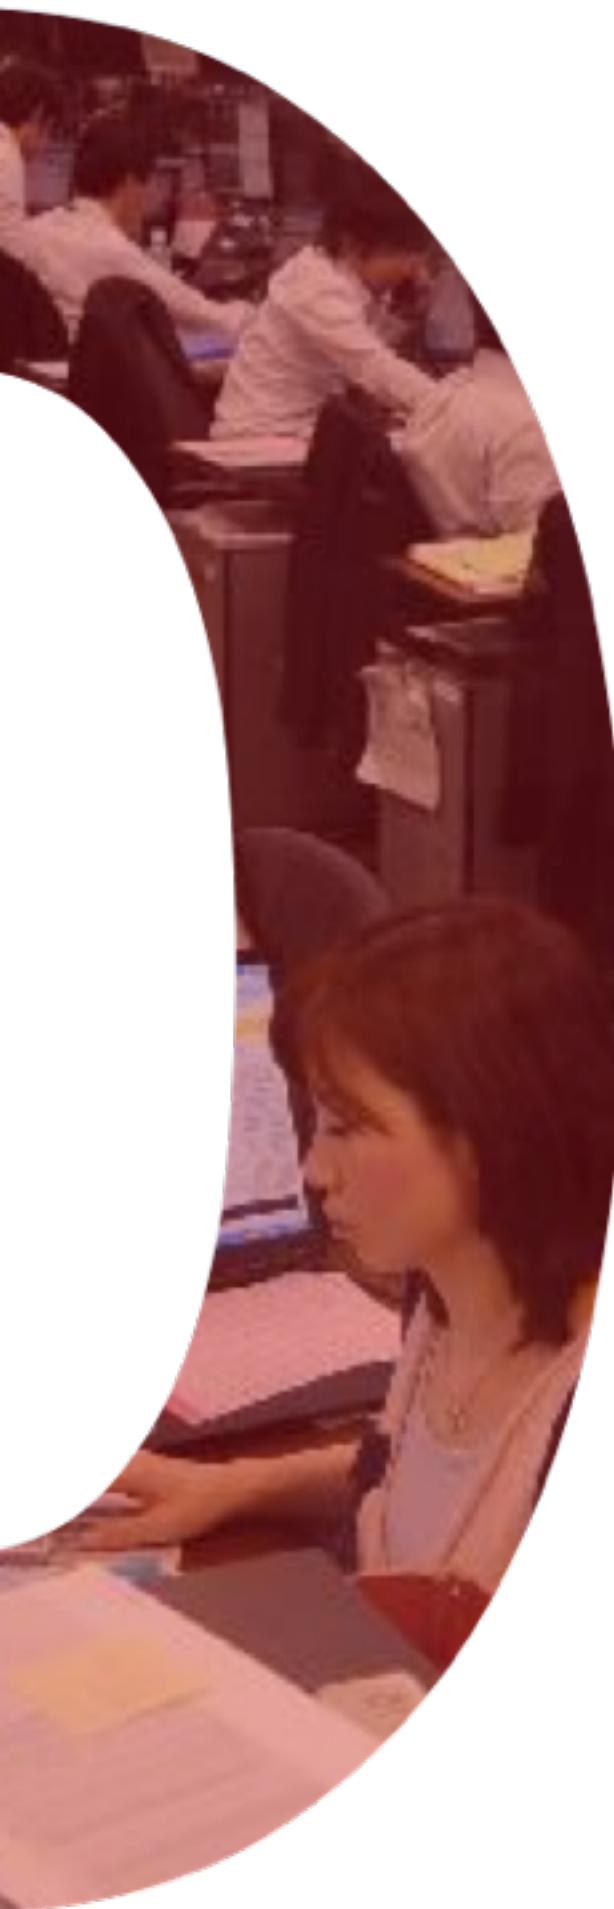

Invites received and send automatically synched with

Demo

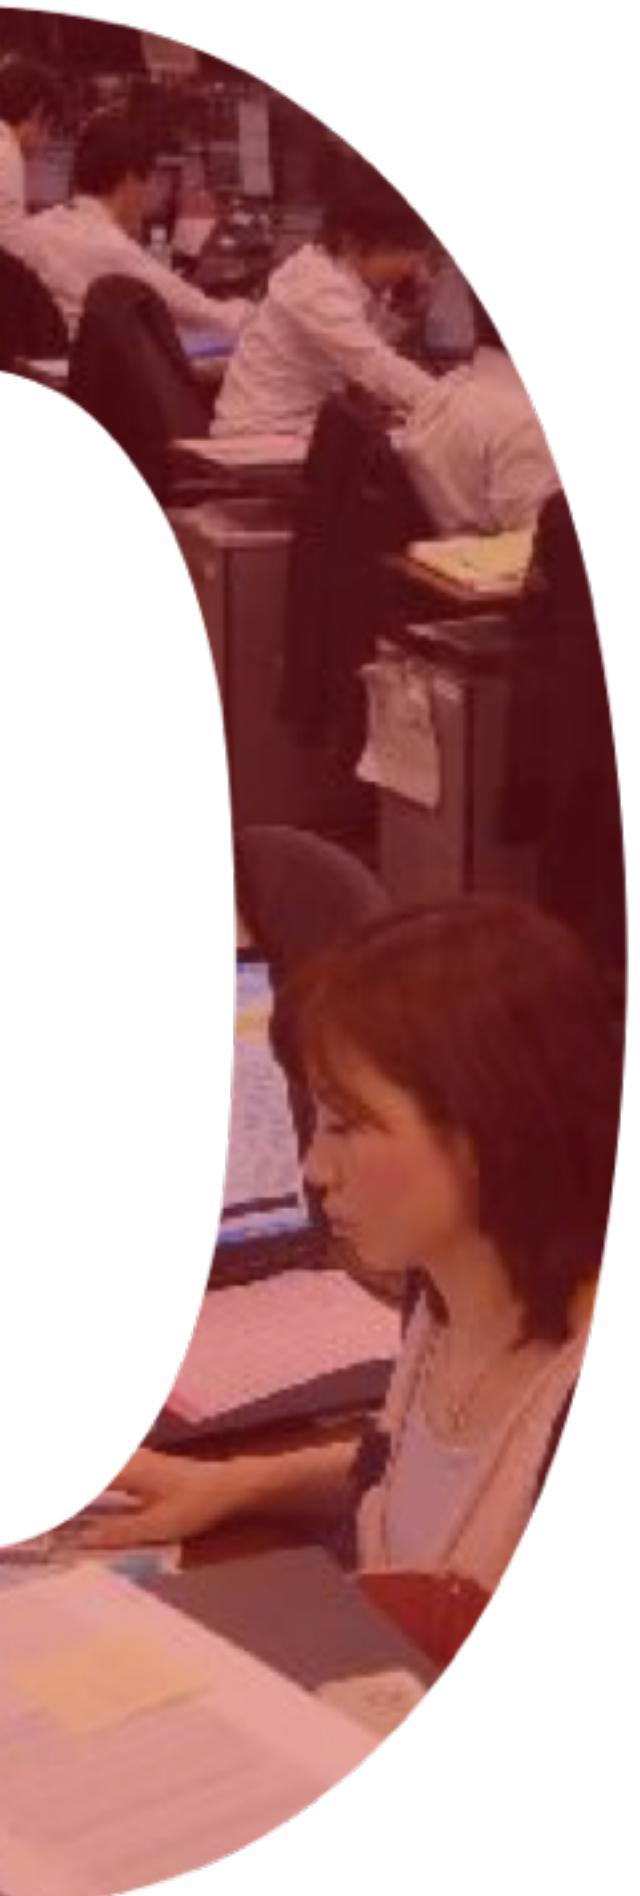

Main Feature

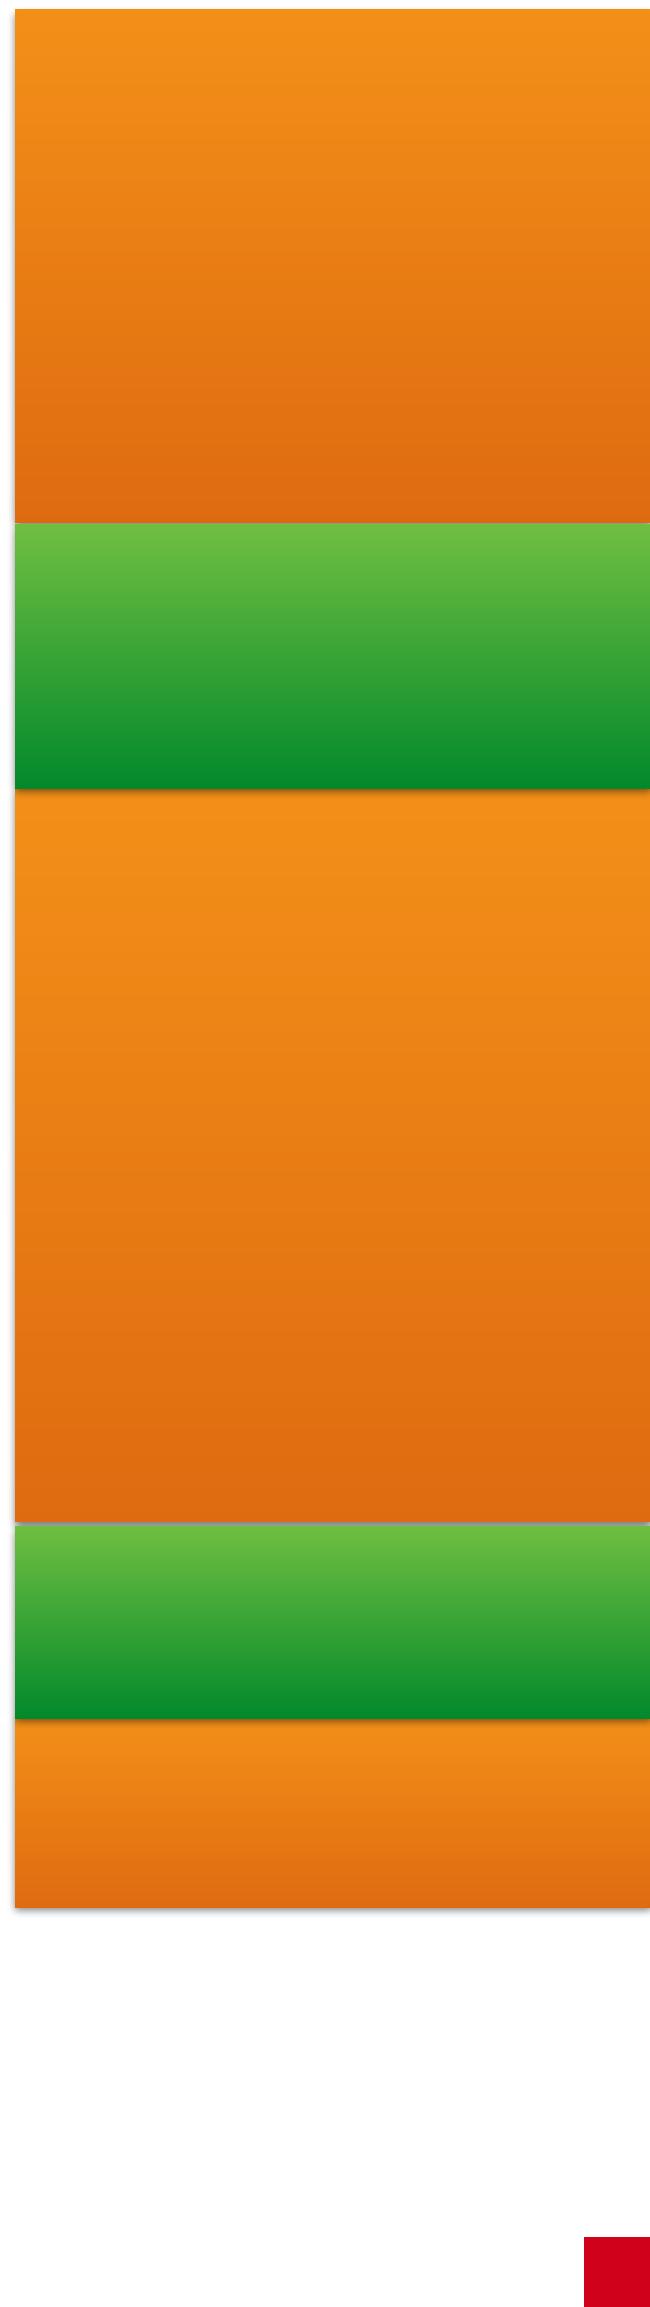

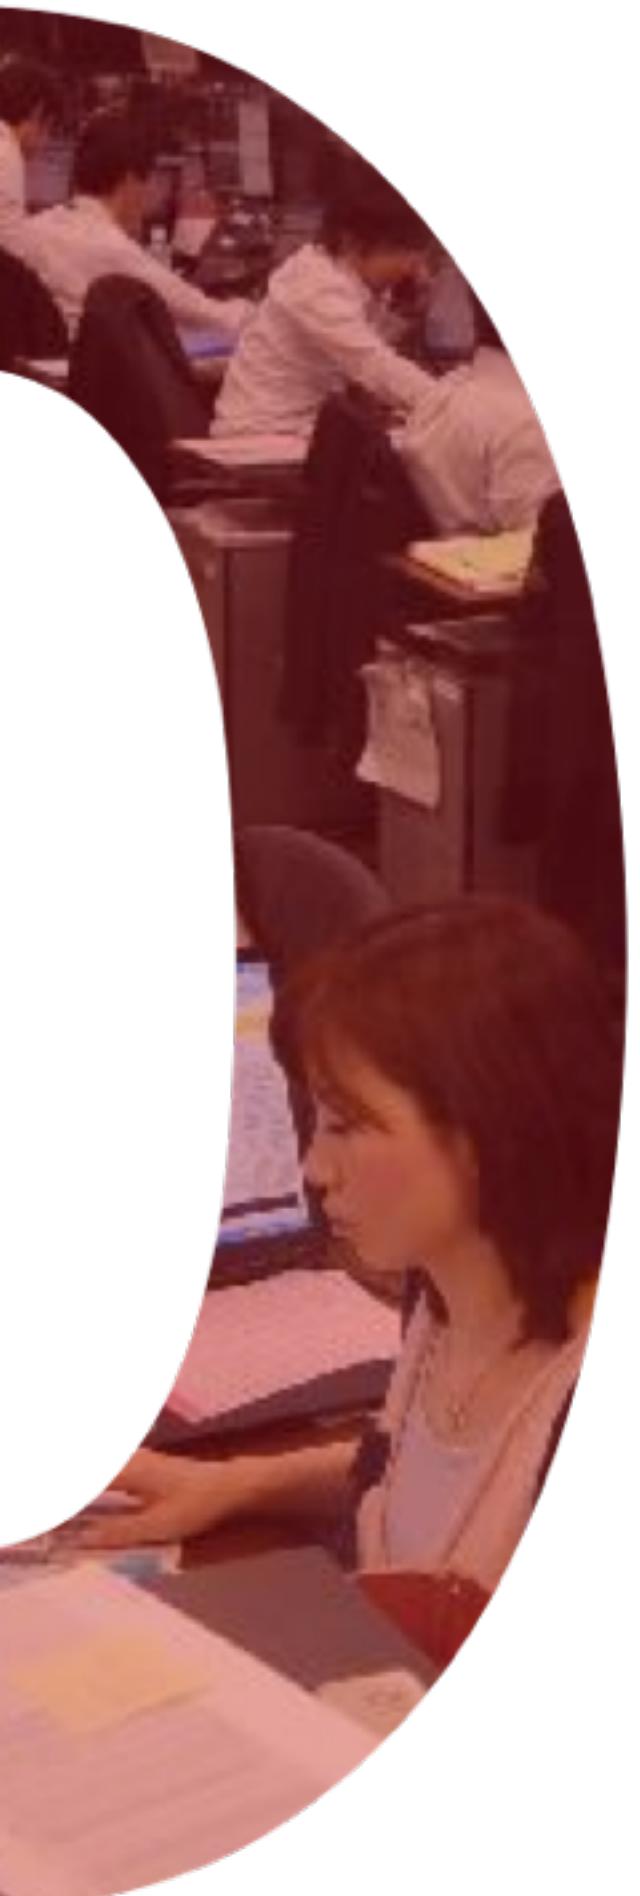

src/AppBundle/Service/SuperpositionKillerService.php
